

OLE  **CHEM**

SAY HELLO TO

OLEOCHEM

WHAT IS OLEOCHEM

Oleochem represents Shankar's strategic commitment to high-performance, sustainable fatty acid chemistry. Our product range is derived from renewable vegetable oil feedstocks and processed through advanced fractionation and purification systems to ensure consistent industrial-grade performance. We offer a comprehensive portfolio of: distilled soya fatty acid ecoDSFA palmitic acid linoleic acid and vegetable pitch oil

APPLICATION

HOME CARE
Detergent & Soap Feedstock

PERSONAL CARE
Cosmetic & Surfactant Intermediates

POLYMER & ENERGY
Plasticizers & Biofuel Components

INDUSTRIAL
Lubricants & Process Fluids

PACKAGING & GLOBAL LOGISTICS

HDPE Drums MS Drums IBC Tanks Flexi Bags ISO Tanks (Bulk Export)

Customized packaging configurations available.

Efficient global dispatch, export-compliant documentation, and supply chain traceability ensured.

Oleochemicals are high-performance chemical building blocks derived from renewable vegetable oils

■ SOYA

■ SUNFLOWER

■ MUSTARD

Processed through advanced separation technologies, renewable oils are converted into high-purity oleochemical intermediates with controlled molecular profiles and verified quality parameters. Engineered for consistent Acid Value and Iodine Value, our oleochemicals deliver reliable performance across food, personal care, and industrial applications.

OLEOCHEM

SOURCE

Key Function / Use

Oleo DSFA	Soy	Binder /Building block for resin formation
Oleo Eco	Soy	Sustainable industrial & functional ingredient
Oleo P Palm	Soy /Palm	Soap, cream & emollient applications
Oleo F Lino	Soy /Sunflower	Nutritional Support
Oleo F Vpo	Soy/Oilseeds	Drilling Fluids

Engineered for Performance. Designed for Sustainability. Delivered Globally.

SHANKAR INDIA

SHANKAR is a Global Lecithin and Phospholipids company head-quartered in India, founded in 1984. PRO NATURE, PRO FUTURE is the mission the company chose in its new generation and avatar in the 21st century. The Company and its people have committed themselves to develop and gain expertise in natural ingredients for Food, Feed, Health and Industrial Applications. All products we work on have a clear goal of SUSTAINABILITY and HEALTH. Thus, it supports our goal of commitment to Nature and Future. All our products are derived from by-product/waste of the edible oil refining industry.

SHANKAR EUROPE

SHANKAR Europeis and SHANKAR India Initiative to provide end to end Lecithin solutions with full commercial and technical support in Europe with a base in Italy. Shankar has the most wide range of Lecithins and Phospholipid products and with this initiative it will bring the best in supply chain for applications of Food, Feed, Health and Personal Care under brand names of ACTISOME, ACTISERINE, NULEC, INNO-PC, INNO-PS, INNO-PHY and A-POLLO.

 Indore, India | Bergamo, Italy
